## **DETAILED ACTION**

### Status of Claims

**1.** Claims 1, 4, 5, 7-12, and 14-43 filed August 19<sup>th</sup>, 2010, are currently under examination. Claims 7-12, 14, 16-18, 20-34, 37, and 38 were previously withdrawn and claims 2, 3, 6, and 13 were cancelled.

# Rejoinder and withdrawn of restriction requirement

2. Claim 1 is directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(b), claims 8 and 9, directed to the process of making or using the allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104. Claims 7 and 10, directed to the inventions of making the claimed flux and brazing, respectively, have NOT been rejoined and are cancelled by the instant Examiner's amendment.

Because a claimed invention previously withdrawn from consideration under 37 CFR 1.142 has been rejoined, the restriction requirement betweens groups I, II, III, and IV as set forth in the Office action mailed on March 7<sup>th</sup>, 2008 is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, Applicants are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C.

Art Unit: 1733

121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

# Withdrawal of election of species requirement

3. In view of the Examiner's amendment to the instant claims below adding the species together to form a single generic claim 1, the previous election of species requirement mailed October 23<sup>rd</sup>, 2008 has been withdrawn. Claims 16-17, 20-34, and 37, which were previously withdrawn as drawn to nonelected species have been entered as shown in the Examiner's amendment below.

# Examiner's Amendment

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin McHenry on April 11<sup>th</sup>, 2011.

Any claims not mentioned below remain as stated in the previous claim amendments of August 19th, 2010.

### End of Claim Amendments

## Allowable Subject Matter

**5.** Claims 1, 4, 5, 8, 9, 15-17, 19-37, 40, and 41 are allowed.

### Reasons for Allowance

**6.** The following is an examiner's statement of reasons for allowance:

With respect to independent claim 1, the closest prior art was Peng in view of Ishii and Englert however Peng disclosed a bonding material designed to be melted to bond two surfaces together, not a brazing flux with nanoparticles and Peng did not

Art Unit: 1733

disclose nanoparticles dispersed as nanoaggregates in an organic polymer. Englert

was the only reference disclosing a brazing flux but there is no motivation to add

nanoparticles to the flux of Englert.

With respect to process claims 8 and 9, these claims are allowed as they require

all the limitations of claim 1.

Any comments considered necessary by applicant must be submitted no later

than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance."
